Hi Bill,
The plan is to pull the boat over the holidays. I am cc'ing Cliff Firstenberg and Carlie Thompson from Tierra Solutions. You can coordinate with them the schedule for observing the next round of tests. Let me know if you have any other questions.

Subject: Newark Bay Bathymetry Survey
=====

Hi Eugenia,

I am the AECOM person who has provided bathymetric survey oversight, basically Jason Magalen's mirror at AECOM. I am contacting you to request assistance in coordinating with Tierra/OSI to visit the site and ride the survey vessel. Ideally I would like to contact them today or tomorrow and find out what their holiday schedule is. If they are pulling the vessel over the holidays I would like to be on site for the patch and performance test when they re-launch and a day of survey work. Could you please provide me with the person you would prefer I deal with at Tierra.

Thank You.
